PROFESSIONAL SUMMARY

Computer Science diploma graduate (2025, 81%) with hands-on internship experience in SQL and database management and a strong foundation in Python, Java, C, Data Structures, and OOP concepts. Familiar with Software Development Life Cycle (SDLC), problem-solving, and version control using Git and GitHub. Experienced in basic API concepts and web development. Seeking an entry-level software or diploma-based role.

TECHNICAL SKILLS

Programming Languages: Python, Java, C
Core Concepts: Data Structures, OOP Concepts, Problem Solving, SDLC
Web Technologies: HTML, CSS, JavaScript, Basic API Concepts
Database Technologies: SQL, DBMS, MySQL
Tools & Version Control: Git, GitHub
Operating Systems: Windows, Linux

PROJECTS

Student Database Management System (SQL, DBMS)
• Designed and implemented a database management system using SQL (MySQL).
• Applied Data Structures concepts for structured data handling.
• Used SELECT, INSERT, UPDATE, DELETE, JOIN queries.
• Followed SDLC phases including design, development, and testing.

Website Development – Weather Forecasting & Tourism
• Developed responsive website using HTML, CSS, JavaScript.
• Applied OOP concepts in JavaScript.
• Implemented basic API integration concepts.
• Used Git and GitHub for version control.

INTERNSHIP EXPERIENCE

SQL Intern
National Institute of Computer Technology, Cuttack (June 2024 – Present)
• Worked with SQL, DBMS, and structured data.
• Practiced Data Structures fundamentals.
• Applied problem-solving techniques to optimize queries.
• Gained exposure to SDLC in real-world projects.

EDUCATION

Diploma in Computer Science & Engineering – DRIEMS Polytechnic, Cuttack (2025) – 81%
Matriculation – Chhatia Government High School (2022) – 75%
